2022 Sloan Research Fellows

The Alfred P. Sloan Foundation congratulates the winners of the 2022 Sloan Research Fellowships. These 118 early-career scholars represent the most promising scientific researchers working today. Their achievements and potential place them among the next generation of scientific leaders in the U.S. and Canada. Winners receive \$75,000, which may be spent over a two-year term on any expense supportive of their research.
